

Your proposed constituency is Shrewsbury

Our Revised proposals (https://www.bce2018.org.uk/download_document?type=0&document_id=41231), published on 17 October 2017, set out the new constituencies in the West Midlands. You have until 11 December 2017 to tell us what you think of them.

You can use the map below to view the proposals, compare them with our initial proposals, your existing constituency and see how they relate to local government boundaries in your area. Or you could learn about the 2018 Boundary Review by watching this video. (https://youtu.be/lvPV4xy_Ebo)

In formulating our revised proposals we have reflected on all the written comments received during the previous two consultations and all the oral comments made at the public hearings.

You can comment on our revised proposals using the 'Make a comment' button.

The boundaries and the name labels in the wards, polling district and existing and proposed constituency layers are visible only at a certain zoom level. Please zoom in to see all the information on these layers. Polling district electorate data is provided by local authorities and we are not responsible for its accuracy.

Review details

What do you need to know?

- The number of constituencies in the West Midlands must reduce from 59 to 53
- By law, every constituency we propose must contain between 71,031 and 78,507 electors
- We largely use local government wards as the building blocks for proposed constituencies
- We try to retain existing constituencies where possible
- We try to have regard to geographic factors
