

Shrewsbury

Town Council

Support the “Red / Green Card Lifeline” Scheme

During this Coronavirus crisis, a growing number of our neighbours are becoming isolated in their homes. The enclosed card will show whether you are OK, or whether you need some help. The **green side** means you're OK, the **red side** means that you need help.

Here are three simple steps for using the red/green card:

- ***If you are isolating in your home*** and need help, simply place the card, **red side** showing, in your front window where your neighbours and passers-by can see it.
- ***If you are isolating in your home*** and you're doing okay then put the card, **green side** showing, in your front window.
- ***If you are able to get out and about***, please look out for the red card in your neighbours front window. Either knock on their door if you are able to do so, or contact your local Councillor via <https://www.shrewsburytowncouncil.gov.uk/councillors>
