

RESTRICTED OPENING FURTHER INFORMATION

Until further notice, the cemetery is operating restricted opening for those attending funerals and for those specifically visiting a grave or graves to pay their respects, to tend to a grave or to lay flowers or similar on a grave.

Increased numbers of funerals are taking place at this present time. To protect the small number of key staff that make arrangement for funerals we request the public **do not** use the cemetery solely for their permitted daily exercise as better options exist in close proximity to the cemetery for this purpose.
